

APPLYING TOC TO SOLVE A PROBLEM BEYOND THE CLASSROOM LESSON

This Year One child in Mrs. Kamariah's class draws her own Cloud for a situation involving two other friends in her class. Mrs. Kamariah is very pleased that her charge has been able to apply what she has learnt in using the Cloud on her own.

The Cloud outline is drawn on the school compound for the children to use it to solve problems in the daily school life that may have situations with conflict or problems that need to be resolved.
